# PARTS LIST / INVENTORY

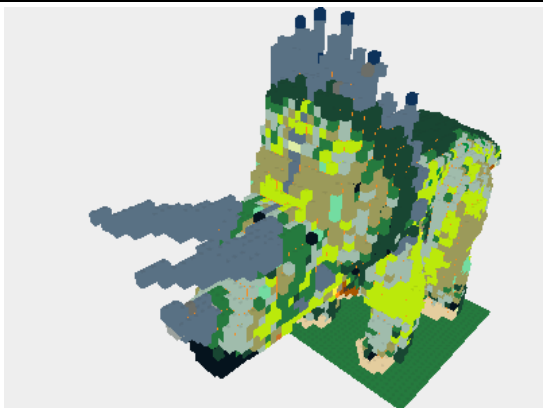

## NOTES:

- parts in orange can be in any colour as they are internal "core" elements and won't be 'seen'. In the video, I may have referred to these as being in Speckle Black Copper (they are now orange, similar to what was used in the video). <https://youtu.be/6ZdXLfh6Lo8>
- Technic parts can be in any colour. I haven't specified exactly where pins can go - just anywhere they fit in the Technic pieces to hold them together in the frame.
- Dark Green can be used for Metallic Dark Green
- Dark Bluish Grey can be used for Speckled Dark Bluish Grey Silver
- The latest version of the instructions will be on my website <https://www.mattelder.com> . My website also has the digital 3D LDR file in 53 steps should you require any further clarification of steps and pieces
